DATA ANALYST | BUSINESS ANALYST | MIS ANALYST

PROFESSIONAL SUMMARY

Data-driven analyst with 3+ years of experience in MIS reporting, data analytics, and project monitoring across government finance and infrastructure sectors. Proficient in Python, SQL, Power BI, and Excel. Proven track record of converting raw field data and financial records into actionable dashboards, KPIs, and business insights. Reduced MIS reporting turnaround time by 40% through automation. Seeking to leverage analytical expertise and stakeholder communication skills in a Data Analyst or Business Analyst role.

TECHNICAL SKILLS

Data Analysis & Visualization: Python (Pandas, NumPy, Matplotlib), Power BI (DAX, Power Query), Excel (Pivot Tables, Macros, VBA), Data Visualization, Dashboarding, KPI Tracking

Databases & Query Languages: SQL (MySQL, Joins, Subqueries, CTEs, Window Functions, Query Optimization), Relational Databases

Data Engineering & ETL: Data Cleaning, Data Validation, ETL Processes, Data Modeling, Data Reconciliation

Machine Learning & Forecasting: Regression, Time-Series Forecasting, Predictive Modeling, Scikit-Learn

Tools & Platforms: Streamlit, Tkinter, Git/GitHub, AutoCAD, MX Road, Primavera P-6, MS Office Suite

Business Domain: MIS Reporting, Project Monitoring, Fund Utilization Tracking, Compliance Reporting, Stakeholder Management, Government Infrastructure, World Bank Projects

PROFESSIONAL EXPERIENCE

Project Engineer (MIS & Analytics)

North Eastern Development Finance Corporation Ltd. (NEDFi)
Ministry of DoNER, Government of India
Guwahati, Assam | May 2024 - Present

- Managed end-to-end MIS reporting for 1,000+ government-funded infrastructure projects across 8 North-Eastern states, tracking multi-crore fund utilization, timelines, and compliance KPIs
- Designed and maintained structured reporting systems using Excel, SQL, and Python, enabling real-time visibility into project performance and risk indicators
- Performed data cleaning, validation, and reconciliation across field inspection data, financial records, and central MIS databases, achieving 99%+ data accuracy

- Converted unstructured site inspection reports into analyzable datasets for compliance review and management decision-making
- Built monthly and quarterly Power BI and Excel dashboards highlighting project delays, cost overruns, and escalation triggers for C-level leadership
- Collaborated with cross-functional teams (finance, engineering, field operations) to standardize reporting formats and align KPIs with organizational objectives

Key Achievements:

- Reduced MIS reporting turnaround time by ~40% through workflow automation and Excel-based macros
- Improved management visibility into project performance and compliance status across 8 states
- Enabled data-backed fund allocation and risk mitigation decisions for senior leadership

Assistant Engineer (MIS & Analytics)

Alliance Engineers and Consultants Pvt. Ltd.

Guwahati, Assam | Feb 2023 - Apr 2024

- Prepared Detailed Project Reports (DPRs) for 50+ bridge and road infrastructure projects under the World Bank-funded Assam Resilient Rural Bridge Program (ARRBP)
- Processed 10,000+ raw survey data points and CSV datasets into structured engineering, hydrology, and inventory data models for funding approval workflows
- Generated horizontal and vertical alignment models using AutoCAD and MX Road, directly supporting multi-crore funding approval decisions
- Created bridge inventory reports, hydrology analyses, and key plans ensuring compliance with World Bank reporting standards
- Collaborated with government stakeholders, engineers, and survey teams to validate field data and resolve discrepancies across 100+ project sites

Key Achievements:

- Supported data-driven approval of multiple World Bank-funded infrastructure projects through accurate data modeling and reporting
- Established structured data handling protocols improving data traceability and audit compliance

TECHNICAL PROJECTS

SaaS Revenue & Retention Analytics | Python | MySQL | Power BI

- Designed subscription lifecycle data model in MySQL and generated customer behavior datasets using Python
- Performed cohort-based retention and churn analysis to identify high-risk lifecycle stages
- Built interactive Power BI dashboards tracking growth KPIs, retention metrics, and churn drivers
- Developed what-if retention simulator quantifying potential revenue recovery of 1-19% from retention improvements

Pricing & Promotion Impact Simulator | Python | ML | Power BI

- Engineered pricing and marketing datasets; trained regression model with $R^2 = 0.83$ for demand prediction
- Built interactive Power BI What-If simulations for margin-aware pricing and promotion decisions
- Implemented rule-based recommendation engine for optimal promotional strategy guidance

Business Performance Monitoring & Forecasting | Python | Power BI

- Designed multi-dimensional business dataset analyzing trends across regions, categories, and channels
- Implemented time-series forecasting models for revenue prediction and actual vs. forecast comparison
- Delivered dynamic KPI-driven insights for executive decision support

EDUCATION

Bachelor of Technology in Civil Engineering

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

2018 - 2022

Relevant Coursework: Data Structures, Database Management, Probability & Statistics, Project Management

CERTIFICATIONS

- Google Data Analytics (Google)
- Google Artificial Intelligence (Google)
- Data Analytics (Tech Booster)
- SQL (HackerRank)
- Python (HackerRank)
- Problem Solving (HackerRank)
- AutoCAD (Autodesk)
- Primavera P-6 Project Management

INTERNSHIPS

Procure to Pay (P2P) - Data Processing

Adani | Aug 2022 - Nov 2022

- Supported P2P cycle documentation and data processing workflows for procurement operations
- Assisted in invoice matching, vendor data validation, and reporting for procurement analytics

Infrastructure Reporting

Assam Public Works Department (APWD) | Sep 2021 - Oct 2021

- Assisted in site data collection and infrastructure reporting
- Compiled field survey data into structured formats for departmental review

ADDITIONAL INFORMATION

Languages: English (Fluent), Hindi (Fluent), Assamese (Native)

Soft Skills: Stakeholder Communication, Cross-functional Collaboration, Problem-solving, Analytical Thinking, Attention to Detail, Time Management, Business Requirement Understanding

Interests: Business Intelligence, Data Storytelling, Process Automation, Dashboard Design, Data-Driven Decision Making
